

CC 3000

Cable collector

Cod. 10001659

For larger cable diameter

CC 3000-BC

Max. cable diameter: 35 mm (1.38")

Cod. 10001663

R23.03.CF.0408

TECHNICAL DATA

Belt length: 3,000 mm (118")

Min. cable diameter: 0.5 mm (.02")

Max. cable diameter: 19 mm (.75")

Min. cable length: 400 mm (15.75")

Max. cable length: no limits

Power supply:
230 Volt Single phase $\pm 5\%$ - 50/60 Hz - 10A

Pneumatic supply: 5 - 6 Bar (75 - 90 PSI)

Machine weight: 260 Kg (572 lbs)

Machine dimensions:
(L) 3,310mm x (W) 850mm x (H) 1,270mm
(L) 131" x (W) 34" x (H) 50"

The collector device **CC 3000** works with a transport line that is regulated electronically by a clutch brake unit that works by stop-start procedure.

The goods to be delivered are transported through a delivery tunnel that throws the material in a container when signalled 'stop'.

Our collector system can be used without outside impulse in combination with all usual cutting and stripping machines.

Special modifications for use in combination with stripping machines have been made and are available if required.

Because of the open output side it is also possible that the delivered lengths are longer than the aggregate length of the collector.

MAKFIL SYSTEM reserves the right to change the data in this catalogue without prior notice
