DESCRIPTION

Electrical cable- and tubing coiler designed for table top use with adjustable rods.

The coiling diameter ranges from 140 to 400 mm. The machine is operated via a footpedal.

The machine features a speed and reaction time control, a switch to select left-right rotation as well as an electrical overload protection and E-stop button.

The **END-500** coiler is a stand alone unit and can not be used in conjunction with other cutting-to-length machines.
